

Yolk, White or Both?

name _____

Subtraction to 5 (K.OA.A2)

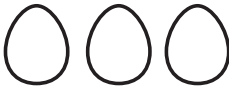

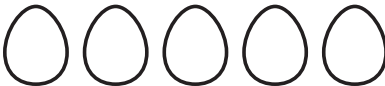

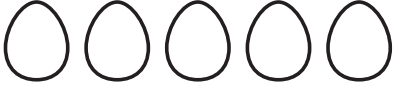

Subtract

Cross out the eggs to help.
If the answer is 2, color the box yellow.

What is good for you – an egg yolk, an egg white or both? Follow the yellow path to find out.

 $3 - 1 = \underline{\quad 2 \quad}$	 $2 - 0 = \underline{\quad \quad}$	 $3 - 3 = \underline{\quad \quad}$
 $5 - 1 = \underline{\quad \quad}$	 $4 - 2 = \underline{\quad \quad}$	 $4 - 0 = \underline{\quad \quad}$
 $4 - 3 = \underline{\quad \quad}$	 $2 - 1 = \underline{\quad \quad}$	 $5 - 3 = \underline{\quad \quad}$

incredible!

Answer Key

 $3 - 1 = \underline{2}$	 $2 - 0 = \underline{2}$	 $3 - 3 = \underline{0}$
 $5 - 1 = \underline{4}$	 $4 - 2 = \underline{2}$	 $4 - 0 = \underline{4}$
 $4 - 3 = \underline{1}$	 $2 - 1 = \underline{1}$	 $5 - 3 = \underline{2}$

Both parts (the yolk and the white) are good for you. Many people think that the white provides all the protein, but the yolk provides almost half of it!
